

SUPER SEWAGE

Have fun colouring in your new SuperSewage friends! Cut them out and find a special spot for them!

Did you know that sewerage are the pipes underground but the stuff that goes through the pipes is called sewage?

Did you know sewage is at least 98% water? That's why we recycle it and use it for parks, gardens and even firefighting!

Sewage contains everything that goes down the drain; from washing dishes, having a shower or flushing the toilet!
