

20 March 2024

North Yarra Main Sewer Rehabilitation

Relining night works starting 3 April 2024

We will be completing relining works on the North Yarra Main Sewer between Burgundy Street and Banksia Street. The sewer line will be cleaned prior to relining, and large trucks and machinery will be used to install the spiral wound liner and CCTV vans to scan the line.

Works are scheduled to start on **Wednesday, 3 April 2024** and are expected to take 5-6 weeks to complete.

| What's happening | Timeline |
|--|-----------------------|
| Preparation cleaning of sewer NYM128 To NYM119 | 3 April to 7 April |
| Relining Sewer NYM126 to NYM119 | 7 April to 21 April* |
| Plugging at NYM126-505 | 7 April to 18 April* |
| Reinstatement and Scanning | 21 April to 12 May* |
| Sewer Bypass at NYM119 Operating 24 hours, 7days a week | Current to mid-April* |

What to expect?

- Traffic management will be present to assist motorists, cyclists, and pedestrians around our temporary work sites. Short detours will be required where manholes are in intersections. Please allow extra time when travelling through the area.
- Noise will be generated from the relining equipment. This noise can be compared to a lawn mower.
- Odour will be present when opening and accessing the maintenance hole. While smelly, it's harmless and will disappear when we finish.
- Bright lights will be used during night works. Where possible, lights will be directed away from neighbouring properties.
- Reduced parking on Burgundy Street near maintenance hole NYM126-505 and on The Boulevard near NYM119.

Working Hours

These works will be completed as part of **night works** between **7pm to 6am***, from **Sunday to Thursday***.

**These dates and times are indicative and subject to change with no prior notice due to weather conditions and fluctuating sewer flows.*
