

Mount Waverley Reservoir Water Main Renewal Project

Start of works-Closure of St Albans Street

Stage C – St Albans Street works (see figure 1 below) of the construction for the Mount Waverley Water Main Renewal Project are expected to commence on **Monday, 29 April 2024**. These works will require closure of St Albans Street and are expected to be completed by **Wednesday, 22 May 2024**.

Figure 1: Project map/footprint

Temporary changes on street parking and vehicle access to driveways.

There will be no on-street parking and only local vehicle access available within the work zone while the works are undertaken. Access to some driveways will be impacted as works travel past. We will work closely with impacted residents to manage these disruptions.

Please keep in mind that because of these temporary road closures, there will be limited on-street parking available in neighbouring streets for both residents and business. The project will reopen the road as soon as it is safe to do so.

What can you expect

Noise and vibration: During construction there will be some noise and minor vibrations associated with the construction. We will reduce these impacts as much as possible.

Pedestrian access: Footpaths will always remain open with detours. Traffic controllers will be present to safely manage traffic and pedestrians in the area. Exercise caution while walking past the work area.

Traffic flow: Increased construction vehicle movement on St Albans Street. Traffic management will be in place to help you safely move around the area. Please follow the signs and any directions from the traffic control staff.

Dust: Dust is to be expected throughout construction. We will use water trucks and street sweepers to minimise this impact. Covering loads when being transported.

Access: There will be no right/left turn into St Albans Street from Stewart Street and Charles Street.

Working hours

Works are scheduled to take place between Monday to Friday, 7am-6pm and Saturdays 7 am-1pm. This is in line with EPA Guidelines.

Prior notification will be provided if works are to occur outside standard times.
