

North Yarra Main Sewer Rehabilitation

Night works commencing 29 September 2024

Works to complete installation of the new liner in the North Yarra Main Sewer are scheduled to start from **Sunday 29 September 2024**.

What are we doing

We will work our way from maintenance hole to maintenance hole starting from Burgundy Street/Rosanna Road intersection to The Boulevard/Mossman Drive intersection. We will be at each location for approximately two nights (please refer to map). These works are anticipated to take approximately three weeks to complete (weather permitting).

Working Hours

These works will be completed **at night between 7pm and 6am, from Sunday to Thursday**. Dates and times will be subject to change due to weather conditions and fluctuating sewer flows.

What to expect

- **Traffic management** will be present to assist motorists, cyclists, and pedestrians around our temporary work sites. Short detours will be required where maintenance holes are in the roadway. Please allow extra time when travelling through the area.
- **Noise** will be generated from the construction equipment. This noise can be compared to a lawn mower. We will implement noise reducing methods, where possible, to minimise disruption to the community.
- **Bright lights** will be used during night works. Where possible, lights will be directed away from neighbouring properties.
- **Odour** will be present when opening and accessing the maintenance hole. While smelly, it's harmless and will disappear when we finish.
- **Flow management** will be set up at nearby maintenance holes to assist with works. This may include the use of a sucker truck to reduce sewage flows.

There will be no interruption to your water or sewerage services during our works. If you experience any issues with your sewerage service, please contact Yarra Valley Water on 1300 304 688.

Location of works

Thank you

We appreciate our work can be disruptive and thank you for your understanding. Works may be rescheduled in the event of unexpected impacts.
