# Mount Waverley Water Main Renewal Project

## Night works: High Street Road (Baringa Street)

The Mount Waverley Water Main Renewal project is nearing completion with connection works on High Street Road between Josephine Avenue and Lawrence Road, scheduled to commence the week of **Monday 7 October**. These works will assist with the final stages of preparing the new pipeline for use.

### What are we doing

To safely do these works there will be a **full road closure** on High Street Road, between Josephine Avenue and Lawrence Road (refer to map). These works will be at night between **9pm and 5am** when traffic movement is at its lowest and take up to **one night** to complete (weather permitting).

**When:** Monday 7 October

**Time:** 9pm – 5am (Monday night)

### What to expect (night time only)

**Change in traffic:** Local traffic access only between Josephine Avenue and Lawrence Road (refer to map).

**Detours:** During this time, local traffic will be detoured around the work area (refer to map):

- Eastbound traffic will be detoured via Lechte Road and Lawrence Road
- Westbound traffic will be detoured via Lawrence Road, Cornell Street, Blue Hills Avenue and Stewart Street
- Heavy vehicles will be detoured at Stephenson's Road and Blackburn Road via Waverley Road or Burwood Highway
- Please allow extra travel time during this period.

**Lights:** Temporary light towers may be required during this time. Where possible, they will be positioned to face away from residential properties.

**Noise and vibration:** Our trucks and machinery will create noise and minor vibration associated with the excavation of the road. Where possible, sound dampening methods will be applied.

**Out of hours:** When we are not working on High Street Road, metal plates will be secured over the road to ensure safe driving conditions. Speed limits will apply.

**Pedestrian access:** Footpaths around the work section on High Street Road will be closed with a detour in place. All other footpaths will remain open. Please travel safely around the work area.

### Location of works

Figure 1: Work area and local traffic detour routes

### What's next

Night works will be undertaken intermittently along Fleet Street and High Street Road until December (weather permitting) as we finish the final pipeline connections and permanent reinstatement. These works are scheduled at night to ensure reduced traffic impacts. Further information with dates will be provided.

We thank you for your patience and consideration while we undertake these works.
