# Mount Waverley Water Main Renewal Project

## Night works - High Street Road

The Mount Waverley Water Main Renewal project is nearing completion with connection works on High Street Road, between the eastern side of Blackburn Road and High Street Road intersection and Hunter Street Road, due to commence **Tuesday 8 October**.

### What are we doing

To safely do these works there will be a **full road closure** on High Street Road, between the eastern side of Blackburn Road and High Street Road intersection and Hunter Street (refer to map). These works will be **at night between 7pm and 5am** when traffic movement is at its lowest and take approximately **two weeks** to complete (weather permitting).

**When:** Tuesday 8 October - Friday 18 October

**Time:** 7pm – 5am (Monday to Friday)

### What to expect (night time only)

**Change in traffic:** No right- or left-hand turn into High Street Road from Blackburn Road heading East towards Glen Waverley (refer to map).

**Detours (night time only):** Local traffic will be detoured around the work area (refer to map):

- Eastbound and Westbound traffic will be detoured via Utah Road and Orchard Street.
- Southbound traffic will be detoured via Hunter Street and Matthew Street to access Blackburn Road.
- Heavy vehicles will be detoured at Springvale Road and Blackburn Road via Waverley Road or Burwood Highway.

**Noise and vibration:** Our trucks and machinery will create noise and minor vibration associated with the excavation of the road. Where possible, sound dampening methods will be applied.

**Pedestrian access:** Footpaths around the work section on High Street Road will be closed with a detour in place. All other footpaths will remain open. Please travel safely around the work area.

**Out of hours:** When we are not working on High Street Road, metal plates will be secured over the road to ensure safe driving conditions. Speed limits will apply.

**Public transport:** Bus services will continue to run as scheduled, however, both directions of the Blackburn Road/ High Street Road stops will be closed during these works (*night time only*).

### Location of works

Figure 1: Work area and local traffic detour routes

### What's next

Night works will be undertaken intermittently along Fleet Street and High Street Road until December (weather permitting) as we finish the final pipeline connections and permanent reinstatement. These works are scheduled at night to ensure reduced traffic impacts. Further information with dates will be provided as we progress.

We thank you for your patience and consideration while we undertake these works.
