# Mount Waverley Water Main Renewal Project

## Night works: High Street Road (Lee Avenue)

The Mount Waverley Water Main Renewal project is nearing completion with connection works on High Street Road at the corner of Lee Avenue and High Street Road due to commence the week of **Monday 14 October**. These works will assist with the final stages of preparing the new pipeline for use.

### What are we doing

To safely do these works there will be a **full road closure** on High Street Road, between Inverell Avenue and Larch Crescent (refer to map). These works will be at night between **9pm and 5am** when traffic movement is at its lowest and take approximately **one week** to complete (weather permitting).

**When:** Monday 14 October - Friday 18 October 2024

**Time:** 9pm – 5am

### What to expect (night time only)

**Change in traffic:** Local traffic access only between Inverell Avenue and Larch Crescent (refer to map). We will be in touch with residents and allow for alternative arrangements where possible.

**Detours:** During this time, local traffic will be detoured around the work area (refer to map):

- Eastbound traffic will be detoured via Lawrence Road, Baily Street and Maple Street
- Westbound traffic will be detoured via Lawrence Road and Prince Avenue
- Large vehicles will be detoured at Stephenson's Road and Blackburn Road via Waverley Road or Burwood Highway.
- Please allow extra travel time during this period.

**Local traders:** Access to High Street Road and Blackburn Road businesses will be maintained. To stay safe, please follow all instructions from traffic controllers.

**Light:** Temporary light towers may be required during this time. Where possible, they will be positioned to face away from residential properties.

**Out of hours:** When we are not working on High Street Road, metal plates will be secured over the road to ensure safe driving conditions. Speed limits will apply.

**Noise and vibration:** Our trucks and machinery will create noise and minor vibration associated with the excavation of the road. Where possible, sound dampening methods will be applied.

**Pedestrian access:** Footpaths around the work section on High Street Road will be closed with a detour in place. All other footpaths will remain open. Please travel safely around the work area.

### Location of works

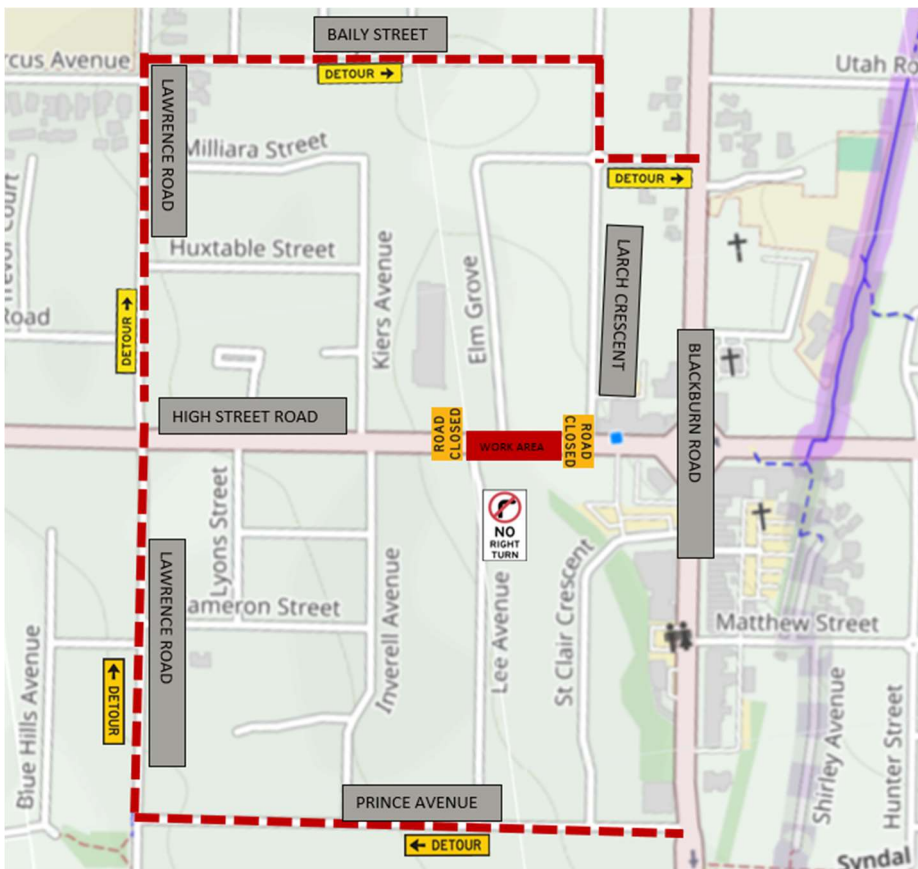

Figure 1: Work area and local traffic detour routes

### What's next

Night works will be undertaken intermittently along Fleet Street and High Street Road until December (weather permitting) as we finish the final pipeline connections and permanent reinstatement. These works are scheduled at night to ensure reduced traffic impacts. Further information with dates will be provided.

We thank you for your patience and consideration while we undertake these works.
