

Melway Ref: 214 J3

Author: Rebekah Campbell

Scale @ A1 1:7000

DSCM Legend

- DSS Boundary
- DS Strategy Boundary
- DSCM Property
- Stage (Allocated)
- Stage (Works in Progress)
- Stage (Finalised)
- Nodes
- Bio-Retention Swale
- Channel
- Cleanout works
- Culvert
- Grassed Swale
- Low flow pipe with Channel
- Overland flow path
- Pipeline
- Soft Engineering
- Bio-Retention Basin
- Buffer Strip
- Inlet/Outlet Structure
- Junction Pit
- Litter trap
- Retarding Basin
- Sediment trap
- Wetland

As Constructed Legend

- Channel
- Natural Waterway
- Sewer Main
- Underground Drain
- Water Main
- Flood Extents
- Lake
- Retarding Basin
- Sediment Trap
- Wetland

Plan Date: April 2017

Melbourne Water has been diligent in collecting, validating and processing the attached data. Melbourne Water Corporation makes no representation or guarantee as to the accuracy or completeness of this data. Any person or group that uses this data does so at its own risk and should conduct its own assessment and investigations to the suitability and application of the data. Melbourne Water Corporation shall not be liable in any way to any person or group for any loss or damage, including damages, costs, interest, loss of profits or speculation or otherwise, arising from the use, error, inaccuracy, incompleteness or other defect in this data.

Melbourne Water is providing this information and is not to be used as the basis of future design and expects that the reported engineering consultant will perform their own calculations as part of requirements for their development.

Please note that as schemes develop and Melbourne Water receives additional information, the corresponding advice available herein provided as part of the feasibility request may become outdated. Under the circumstances it is the responsibility of the consultant to ensure that Melbourne Water's feasibility advice is current and to certify that all information already provided to Melbourne Water for acceptance is correct having completed their own detailed calculation analysis.
