

### DSCM Legend

- DSS Boundary
- DS Strategy Boundary
- DSCM Property Stage (Allocated)
- Stage (Works in Progress)
- Stage (Finalised)
- Nodes
- Bio-Retention Swale

### As Constructed Legend

- Channel
- Natural Waterway
- Sewer Main
- Underground Drain
- Water Main
- Channel
- Cleanout works
- Culvert
- Grassed Swale
- Low flow pipe with Channel
- Overland flow path
- Pipeline
- Soft Engineering

### As Constructed Legend

- Bio-Retention Basin
- Buffer Strip
- Inlet/Outlet Structure
- Junction Pit
- Litter trap
- Retarding Basin
- Sediment trap
- Wetland

### As Constructed Legend

- Flood Extents
- Lake
- Retarding Basin
- Sediment Trap
- Wetland

**Plan Date: April 2017**  
 Melbourne Water is providing this information and a not to be used as the basis of future design and aspects that the appointed engineering consultant will perform their own calculations as part of requirements for their development.  
 Please note that as schemes develop and Melbourne Water receives additional information, the conceptual/indicative advice you have been provided as part of the feasibility report may require or change. Under the CA process it is the responsibility of the consultant to ensure that Melbourne Water's feasibility advice is correct and to verify that all information obtained is provided to Melbourne Water for acceptance to correct having completed their own detailed assessment analysis.
