

**DSCM Legend**

- DSS Boundary
- DS Strategy Boundary
- DSCM Property
- Stage (Allocated)
- Stage (Works in Progress)
- Stage (Finalised)
- Nodes
- Bio-Retention Swale

- Channel
- Cleanout works
- Culvert
- Grassed Swale
- Low flow pipe with Channel
- Overland flow path
- Pipeline
- Soft Engineering

- Bio-Retention Basin
- Buffer Strip
- Inlet/Outlet Structure
- Junction Pit
- Litter trap
- Retarding Basin
- Sediment trap
- Wetland

**As Constructed Legend**

- Channel
- Natural Waterway
- Sewer Main
- Underground Drain
- Water Main
- Flood Extents
- Lake
- Retarding Basin
- Sediment Trap
- Wetland

**Plan Date: April 2017**

Melbourne Water is providing this information and is not to be used as the basis of future design and aspects that the appointed engineering consultant will perform their own calculations as part of requirements for their development.  
Please note that schemes developed and Melbourne Water receives additional information, the conceptual/indicative advice you have been provided as part of the feasibility report may become outdated. Under the CA process it is the responsibility of the consultant to ensure that Melbourne Water's feasibility advice is current and to verify that all information obtained from their own detailed engineering analysis.  
Melbourne Water makes no representation or guarantee as to the accuracy or completeness of this data. Any person or group that uses this data does so at their own risk and should make their own assessment and investigations as to the suitability and/or application of the data. Melbourne Water Corporation shall not be liable for any loss or damage, including consequential loss or damage, arising from any use, error, inaccuracy, incompleteness or other defect in this data.
