	Natural Waterway
	Sewer Main
	Underground Drain
	Water Main

	Flood Extents
	Lake
	Retarding Basin
	Sediment Trap
	Wetland

Plan Date: April 2017

Melbourne Water is providing this information and it is not to be used as the basis of future design and aspects that the appointed engineering consultant will perform their own calculations as part of requirements for their development.

Please note that as schemes develop and Melbourne Water receives additional information, the conceptual/indicative advice you have been provided as part of the feasibility report may become outdated. Under the CA process it is the responsibility of the consultant to ensure that Melbourne Water's feasibility advice is current and to notify that all information obtained provided to Melbourne Water for acceptance is correct having completed their own detailed assessment analysis.
